

Internship Project Management: Craft Atlas Ethiopia(m/f/d)

at Direktorenhaus (Berlin)

Overview Craft Atlas Ethiopia

Craft Atlas Ethiopia is a digital platform for the dissemination, preservation, and study of Ethiopian handicrafts. The aim of the platform project is to make artisans specializing in handicraft visible. The artisans who were merely visible before will be incorporated online and will be portrayed through photographs and descriptive texts, so that they become more accessible. Craft Atlas Ethiopia wants to facilitate the dialogue between the north and south parts of the country, help unique African handicraft artisans become more renown, preserve endangered cultural artefacts, and stimulate international cooperation

Overview Direktorenhaus

Direktorenhaus in Berlin is one of the leading exhibition houses for applied arts in Germany. Since 2010, the museum in the center of the German capital, run by the Meisterrat (German Craft Council), presents selected unique pieces, limited series as well as conceptual design objects. The exhibitions focus on the latest trends in the applied arts. At the same time, the Direktorenhaus does not only show «aesthetic phenomena»: Equally important is the increased importance of design in politics and society, especially in the field of sustainable future planning.

Tasks

- Assist in the development and update of relevant strategies for cultural activation and development of the Craft Atlas Ethiopia project
- Engage with creative industries and cultural network through the maintenance and promotion of the Craft Atlas Ethiopia to raise the project and to understand professional development needs
- Optimising and improving processes, research and the overall approach where necessary
- Develop a detailed project plan to track progress
