CEEPUS is an excellent opportunity for all!

"For the Hungarian University of Agriculture and Life Sciences, CEEPUS has resulted in a joint master's program in one of our networks, which has been operating for more than 20 years. Our graduate students have a **unique opportunity to participate in short term mobility**, which is not available in other programmes or very difficult to access."

Dr. Zsuzsanna Tarr
institutional CEEPUS coordinator, HUALS

"CEEPUS scholarships open the horizons for our students and faculty staff **to countries we do not necessarily know enough about**. In addition to the classical semester mobilities, they also provide an excellent opportunity to gain short-term professional experience. Incoming teachers and students add colour to our academic year and provide useful information about their country, that can be of great value to future engineers."

Prof. Dr. József Gál
vice-dean, University of Szeged

"CEEPUS is a unique highlight in the life of the university and in its internationalization efforts. The program features an unparalleled **shared experience in Central, Eastern and Southern Europe**, that has joined colleagues from countries with similar history and destiny. Summer schools and coordination meetings also serve to nurture this relationship."

Edit Szőke
institutional CEEPUS coordinator, University of Miskolc
